

# Pathology 294

**Basic Concepts in Oncology • Spring Quarter 2025**  
(March 31 through June 6 )

**This is a 4 unit course**

(The course fulfills a Spring Quarter 200 level elective requirement for graduate students)

•  
Students will attend three lectures per week (*1hr/day*) in-person in the Center for the Health Sciences, UCLA  
•

Open to **graduate students** and **upper-level undergraduates with the instructors' approval**  
(Postdocs, residents and fellows may audit the course)

The course will be taught by specialists in their fields, and focuses on basic, translational and clinical aspects of cancer, including the biology of cancer, causes and prevention, epidemiology, diagnostics, molecular screening, therapies, clinical trials, and studies on individual types of cancer

**Contact:** Please email **Andrew Aldapa** ([aaldapa@mednet.ucla.edu](mailto:aaldapa@mednet.ucla.edu)) or **Monique Townson** ([MTownson@mednet.ucla.edu](mailto:MTownson@mednet.ucla.edu)) if you want to reserve your seat before it gets full or to obtain any additional information.

Grading will be based on a mid-term and final examination.

**COURSE ID# 706-565-200**
