UCLA Healthcare / UCLA Medical Group Practice Guidelines Acupuncture

UCLA has adopted the following medical position for the treatment of acupuncture for patients with commercial insurance. (non-Medicare)

UCLA Medical Group may approve the use of acupuncture for following conditions:

- 1. Chronic pain due to osteoarthritis of the knee, hip, or Lumbar Spine
- 2. Nausea and vomiting associated with surgery, chemotherapy or pregnancy
- 3. Other conditions that are covered by the member's Health Plan, if criteria are met

For patients with a Medicare Advantage (Senior) plan, UCLA will follow Medicare guidelines.

Criteria: Based on Anthem Blue Cross Guideline #: CG-ANC-03
